Bio: Patrick started voice acting around the age of 17, although at the time, his equipment was very under-par, as was his acting, and overtime, as he honed in on his voices, and his equipment, he started to become a rather known name on the Voice Acting Alliance, and Newgrounds, and is slowly breaking into the professional industry, with his upcoming voice work for Lucky Mountain Games future release, Racing Apex.

Patrick is open for any available role, and has a quick turnaround, so if you need a voice in quick time, he's your man!
